

MediaMaster™ Video On Demand System

50" Flat Panel LED-Lit 4K LCD

MM-1720-50

Specifications

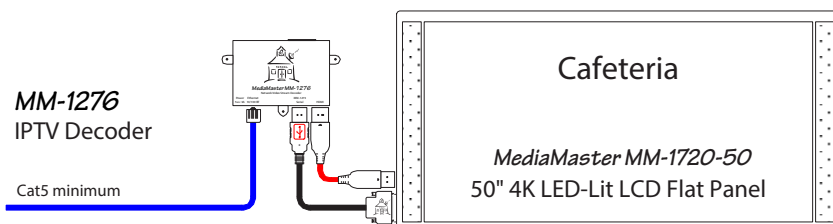

- Width:** 44 in (111.8 cm)
- Height:** 25.4 in (64.5 cm)
- Depth:** 1.0 in (2.5 cm)
- Weight:** 25.4 lbs (11.5 kg)
- Power:** 72 W typical

Description

The 50" 4K display is suitable for medium size common spaces such as front lobbies and meeting rooms. It is often used in conjunction with our PrestoVideo (MM-1142) and Playlist (MM-1160) products to create a digital signage system. Use it for school announcements, lunch menus, secondary emergency annunciation, and more.

The display offers RS-232 serial control, allowing the server to automatically control the display. The typical method for doing this is to do serial control over the school's Ethernet network via an MM-127x or MM-177x series set-top-box.

This is the most common configuration that we certify which sends both IPTV and display control over your school's data network:

Features

- 50" diagonal ultra bright liquid crystal display
- 3840 × 2160 resolution
- Stereo speakers
- 3 HDMI inputs
- VESA mount
- RS-232 control port

Available Accessories

- Tilting wall bracket (MM-1729-TWB)
- Articulated wall bracket (MM-1729-AWB)
- IPTV Decoder (MM-127x and MM-177x series)
